

The background of the advertisement features a woman with blonde hair, wearing a light-colored, short-sleeved knit top and large, ornate earrings. She is looking upwards with a slight smile. In the foreground, a person's hand is holding a smartphone, displaying a digital interface. The scene is set in a modern, brightly lit interior with large glass panels and structural elements, creating a sense of a high-tech, digital environment.

ENTER A NEW ERA OF DIGITALLY ENABLED PEOPLE FLOW

KONE MonoSpace® DX

THE ELEVATOR EXPERIENCE, REDEFINED

In an increasingly digitalised world, everything is connected, and elevators are no exception. The KONE MonoSpace® DX redefines the elevator experience with connectivity for improved people flow and a completely new and inspiring user experience.

DX stands for Digital eXperience, because with the KONE MonoSpace DX you can create an experience that really connects – on every level.

Powered by the compact KONE EcoDisc® hoisting motor, the KONE MonoSpace DX saves valuable space in your building by completely removing the need for a machine room.

Whether you're developing a new building or replacing the elevator equipment in an existing one, we have a solution that fits. Contact your local KONE sales representative to find out more.

1

Get more value out of every square metre with connectivity

By adding connectivity to your elevators you make them smarter and more desirable – helping you get more value out of every square metre of your building. New services enabled by the KONE digital platform and KONE Partner Ecosystem, as well as Application Programming Interfaces (APIs), make everyday life even easier and more convenient for everyone.

2

Differentiate with a redefined user experience for tenants and visitors

Redefine the elevator user experience, bring your vision to life, and inspire users with our new car interior designs, functional and durable materials, direct and indirect lighting, infotainment features, and user-friendly signalisation.

3

Plan for success with KONE as your partner

Make the right decisions first time and plan your elevator down to the very last detail with our next-generation planning tools. Take advantage of our expert support and sustainable materials and technologies to help you achieve green building certifications and ensure compliance with safety codes and standards.

FUTURE- PROOF YOUR BUILDING WITH CONNECTIVITY

The KONE MonoSpace DX takes our market-leading eco-efficient elevators and adds connectivity to make them smarter and more desirable than ever before.

Connected people flow means your elevator solution never stands still and your building gets better with every update.

To bring you peace of mind in the digital world, cybersecurity and privacy are designed into our digital services and connections. Monitoring our digital environments around the clock helps us take proper care of them for you now and in the future.

Easy to upgrade

With easy digital integration and the possibility to upgrade in the future as your needs change, you're all set to add new connected services as and when you need them.

Best-in-class eco-efficiency

Save energy and cut your building's carbon footprint with our eco-efficient hoisting, lighting, and standby solutions.

Space efficiency

Installing everything inside the elevator shaft frees up space for more profitable use. When completely replacing an elevator we can improve accessibility with a bigger car and wider-opening doors – and even reclaim the machine room as rentable floor space.

WE CHOOSE SUSTAINABILITY EVERY DAY.

We understand urbanisation and help our customers make the best of the world's cities, buildings and public spaces, helping you achieve your sustainability objectives.

We pay special attention to the environmental aspects of our offering and operations, and work hard every day to be the most trusted partner throughout the building life cycle.

We have made ambitious climate pledges to this end. Together with our customers and partners, we create better urban environments for us all.

Sustainability Highlights

CDP 2020 'A' score for corporate sustainability leadership

14 elevator models with A class ISO 25745 highest energy efficiency ratings

Set science-based targets for significant reductions in greenhouse gas (GHG) emissions by 2030

EcoVadis platinum medal for sustainability performance

4 escalators and autowalks with the A+++ rating

Pledged to have carbon neutral operations by 2030

GET MORE VALUE OUT OF EVERY SQUARE METRE WITH CONNECTIVITY

In an increasingly connected world, people expect more from the spaces where they live and work. Smart solutions based on connected digital technologies not only help buildings attract a premium price, they also help to speed up the sales or leasing process.

Connectivity enables services such as integrating elevator status data with the building's management system for effortless and more holistic monitoring and troubleshooting, or allowing people to make elevator calls using their smartphones or via other devices such as in-home intercoms.

ADD INNOVATIVE SERVICES THAT IMPROVE CONVENIENCE AND COMFORT

KONE MonoSpace DX utilises the KONE digital platform and secure APIs to connect elevators with a whole new suite of solutions and services that make life easier and more convenient for users.

Take advantage of digital solutions continuously developed by KONE to improve people flow like KONE Residential Flow, to make everyday life easier for residents and KONE 24/7 Connected Services for peace of mind throughout the elevator life cycle.

With KONE APIs you also have the freedom to develop your own smart building solutions, allowing you to further customise the elevator experience to meet the needs of your building and its users.

You can also benefit from solutions and services developed by the growing number of partners of the KONE Partner Ecosystem, which develops solutions that can be integrated with KONE DX Class elevators.

DIFFERENTIATE WITH A REDEFINED USER EXPERIENCE FOR TENANTS AND VISITORS

With KONE MonoSpace DX Class elevators you can harness the power of digitalisation to take the elevator journey far beyond the ordinary. A whole new range of car designs, material options, and lighting and signalisation choices – as well as customisable digital infotainment solutions and health and well-being solutions – adds value to your building.

Anti-stain, anti-fingerprint coating: This specialised coating helps keep coloured stainless steel elevator materials looking new by preventing staining and making fingerprints less visible.

FUNCTIONAL, DURABLE MATERIALS

Design a car interior that's easier than ever to clean, maintain, and keep looking its best with our new range of innovative materials, including finishes with anti-fingerprint properties.

IMPACTFUL LIGHTING

Create just the right ambience with impactful lighting. Our new range includes diffused, direct, and indirect lighting that can be combined to stunning effect.

HEALTH AND WELL-BEING SOLUTIONS

KONE's people flow expertise, together with a range of health and well-being solutions, help to increase safety and contribute to a healthier building environment.

INSPIRING INFOTAINMENT SOLUTIONS

From crisp, clear, easily updatable in-car infotainment screens to fully customisable media content, KONE DX Class elevators offer a host of different ways to inform, entertain, and inspire passengers.

DESIGNED TO SUIT ANY PROJECT

People are the lifeblood of buildings, so our design philosophy is based on a human insight-driven approach that takes the whole elevator journey into account to make sure it connects on every level – from the visual to the emotional, and everything in between.
